W.O.W. Jacobs

Ukutula Lodge and Lion Education Centre

Brits

Dear Mr Jacobs,

**Re: Research collaboration**

This is to express my gratitude for the existing research co-operation between UWC and Ukutula Lodge and Lion Education Centre. Our research project is entitled: "Semen evaluation and cryopreservation of African lion sperm". Our research group is excited about future cooperation particularly in view of your positive attitude towards game farming and research.

Thank you

Kindest regards

**Gerhard van der Horst**
